

Form Based Code Task Force Notes

- In attendance:
 - Herb Goldsmith
 - John Koslowske
 - Roland Nava
- The Task Force and Staff discussed the upcoming Town Hall Meeting for the North End.
 - They decided to notify the public via utility flyers, social media, city website, email, posting the meeting at the Soup Kitchen, and by getting the word out at Pastor Nava's event that upcoming Saturday.
 - It was decided to do a SWOT analysis at the meeting, so the North Area community could have an opportunity to share their input and shape the North Area Form Based Code initiative.
 - Potential topics to discuss: utility issues, funding, possibility of leveraging CIP projects to utilize funds for that area, drainage/flooding, infill/new housing, potential commercial development areas, parks, utilities, sidewalks, bus stops, and lights.
- The Task Force then discussed the order for the Town Hall meeting, it was decided they would do an introduction, and then proceed into the SWOT analysis that would be led by Herb Goldsmith, and then the citizenry would have an opportunity to vote on their preferences.
- Adjourned: 7:45 pm
