These are the following changes the Commission asked Staff to make to the proposed Fee Schedule:

- Include an itemized list for how the hourly Staff rate is assessed for the fees.
- Include the \$25 Technology fee into the fees themselves, instead of having them listed out to the side, and insert a statement that speaks to how this is an added benefit to the end user.
- Include a comparison in the supporting documentation that places the old fees next to the proposed new fees to give a visual demonstration of what the cost difference will be.
- For the Construction Plans (Public Infrastructure) fee, include an explanation of how costs are estimated and assessed with a certified engineers estimate.
- In regards to the GIS Mapping fee provide an option for the applicant to submit the GIS infrastructure in accordance with City specifications.
- Make the Preliminary Plat and Final Plat fees consistent and add "\$20 per acre not designated as a lot or street".
- Define the size for the Small/Minor Site Plan fee as ½ acre or less.
- The Conditional Use Permit and the Variance fees will be the same at \$350 each.
- For the Zoning Change fee make fees tiered, and have it be "less than 5 acres \$500, 5-30 acres \$750, and more than 30 acres \$900".
- For any place referencing professional fees, have a reference to the Professional Fees Ordinance from the Code of Ordinances for clarification.
- For the Public Renotification fee include an explanation stating "due to applicant postponing/pulling from consideration".
